

Features/Benefits

The ideal activity for parties, schools, churches, playgroups, community events, daycares, art classes, or just a fun day at home. Eco-friendly, made of strong, sturdy 100% recyclable cardboard. A great choice that encourages children to become environmentally responsible.

- Light and easy to assemble
- Easy to store, folds down flat in a flash
- Durable, will stand up to your kid's creativity
- Designed to encourage role play and imaginative games
- A fun, creative experience your children will treasure
- Recommended for indoor play or outside on a dry surface
- Made in the USA

Frequently Asked Questions

What type of things can I use to decorate my house or rocket?

You can use anything from crayons, paints, markers, glitter and glue, wallpaper, stickers, etc. There are endless options to express a child's creativity.

How many children will fit inside a house or rocket?

A comfortable fit is two to three children depending upon age.

How big are the house and rocket when fully put together?

The house is 35" long by 27.5" wide by 48" high. The rocket is 65" high by 51 inches wide (fin to fin) by 32" across.

Are the house and rocket safe for very little children?

Yes. They are made entirely of 2 ply cardboard with no staples or sharp corners. It is the equivalent of playing with a cardboard box (except a lot more fun).
